

## Summer Delight: Get a Big Bang Out of a Small Bite

Forget soaking up the sun or relaxing by the pool, one of the best things about summer is the bountiful fruit. Whether it's picked from a tree or from the vine, fruit combined with your favorite baked good makes for a refreshing summer treat. And, adding fruit to dessert is one of the top ten dessert trends for 2009. According to research completed by the Food Channel, adding fruit gives a new twist to any dessert.

Micro Desserts satisfy sweet cravings in one single bite. Your customer's taste buds will run wild when they bite into a fresh raspberry and a brownie, topped with Lyons Raspberry and Chocolate Designer Dessert Sauce. Not only does the flavor come to life, but their eyes will too. These mini delights are served on a wooden skewer or an Asian soup spoon and possess that special eye-appeal that will keep the customers coming back for more.

Our Big Bang Small Bites collection is made up of simple, yet decadent mini-desserts using Lyons Fruit Toppings, Sauces and Syrups. But the simplicity doesn't stop there! Chef Jonathan Davey, Lyons Corporate Chef, has paired our fruit products with ready-made baked goods in nearly 20 irresistible recipes. These sinfully delicious desserts have plate appeal and the power to drive sales.

For a mini-dessert that has unforgettable flavor, texture and versatility, we have 14 Dessert Shooters to choose from. With ingredients like fruit toppings, pound cake, and our sweet sauces that are layered in a shot glass, these colorful mini-desserts are sure to become a profit-raising menu item.

The Dipping Sauce concept captures the true essence of our delightful sauces. This mini-dessert idea doesn't require a lot of prep work and will keep the time in the kitchen to a minimal. Provide your favorite fresh fruits or baked goods, add our appetizing sauces and let the proceeds come to you.

Lyons Magnus knows a thing or two about fruit and is committed to growing and processing fresh, quality fruit; fruit with unsurpassed flavors and colors to enhance your finished product. We've taken that commitment and combined it with creativity, making it easy for operators to maximize their sales and profits.
